| LOA   | 15'10" |
| LWL   | 12'6"  |
| Beam  | 5'10"  |
| Draft | 2'6"   |

For even a seasoned and discerning eye, here is a special, exquisite little yacht. The Doughdish is an exact replica in fiberglass of the wooden Herreshoff 12 1/2, for decades a favorite among Northeast yachting families. She continues to be widely popular and is the only reproduction universally accepted for H-Class competition. She therefore maintains a high resale value.

A Doughdish is ideal for all ages for Class racing, or casual daysailing. She is exceptionally seaworthy and capable in all kinds of weather, surprisingly fast, easy to single-hand, yet also has abundant space for a crew of 4.

With a foam core fiberglass hull she is very durable, yet requires minimal maintenance. Teak trim, seats, and sole combined with varnished spruce spars retain the classic elegant look of her wooden sisterships. The Doughdish may be further customized by the list below to meet the needs of her owner.

*Standard Equipment: Varnished spruce spars, standing and running rigging, mainsail and jib, bucket, manual bilge pump, 2 life preservers, oar, anchor and rode*

## OPTIONAL EQUIPMENT AND REFINEMENT:

- Storage Cradle
- Triad trailer, galvanized
- Sail and Cockpit covers
- Winter cover & frame
- Spinnaker, with pole and gear
